

2017-02-21 -02- Martin A. Wild 000422

Author : x2beetree

Date : Februar 21, 2017

The screenshot shows a social media post from Martin A. Wild. The post includes a profile picture of a smiley face with sunglasses, the name 'Martin A. Wild', and the text 'shared his photo.' followed by the timestamp 'February 17 at 1:51am'. The main content is a clinical severity scale for a question: '15. GLOBAL SEVERITY (this is a NCG question but does not count to the total. It will be answered over the page using a slightly different scale) [Clinician's judgment based on interview]'. The scale is a list of seven levels from 0 to 6, describing the severity of illness and functional impairment. Below the scale, there is a caption from Martin A. Wild: 'Das ist an sich die einzige Skala, die man braucht. Wie schlimm? Was geht noch bzw. wieder?'. At the bottom of the post, there are interaction buttons for 'Like', 'Comment', and 'Share', along with an 'Attach a Photo or Video' button. A comment input field is also visible at the very bottom.

15. GLOBAL SEVERITY (this is a NCG question but does not count to the total. It will be answered over the page using a slightly different scale)
[Clinician's judgment based on interview]

0	No illness
1	Slight illness, doubtful, transient, no functional impairment
2	Mild symptoms, little functional impairment
3	Moderate symptoms, function with effort
4	Moderate-Severe symptoms, limited functioning
5	Severe symptoms, functions mainly with assistance
6	Extreme symptoms, completely nonfunctional
